

# INTERREG EUROPE – LOOKING FOR A PARTNERSHIP

In the topic of:  
**future-ready  
urban logistics**

Interreg  
Europe

European Union | European Regional Development Fund

# PROJECT IDEA – POLICY IMPROVEMENT FOR URBAN LOGISTICS

Interreg Europe focusses on the **improvement of policy instruments** by **policy responsible authorities**.

In Hamburg, we are currently developing the first ever holistic strategy for the logistics location, which we want to improve & update in the coming years with the help of an Interreg Europe project & transnational exchange.

Contents: Future Labour Market, Urban Logistics, Decarbonisation, intelligent infrastructure, space requirements

The current Interreg Europe call will most likely be the last on in this funding period. It is closing on **07 June 2024**. ([see link for details](#)).

Forseen Focus topic for our project proposal:  
**Future-ready urban logistics (working title)**

# CALL FOR PARTNERS

Logistics Initiative Hamburg would like to participate in an Interreg Europe project, but we are unable to lead a project.

Hence, we are **looking for suitable partners**, to either

- **lead** a project proposal and consortium (ideally with experience in Interreg Europe) or
- **join as project partner.**

## Is this relevant for you?

### Checklist

- Do you have an (urban) logistics related policy instrument, which you want to improve in the coming years?
- Do you have a policy instrument that is lacking (urban) logistics aspects which you would like to integrate into it?
- Are you responsible for this policy instrument?
- ✓ **IF SO, please get in touch with us!**
